

Company Overview

Xceed Machine Works Inc. is Western Canada's industry leader providing certified repair, overhaul, and refurbishment for all types of mechanical and rotating equipment including blowers, fans, gearboxes, centrifuges, pumps, mixers, and heavy industrial machinery.

All repairs are performed by qualified technicians utilizing the latest tools, technology, and calibrated testing equipment, In house at one of our two locations in Edmonton, Alberta or Chilliwack, British Columbia.

We strive to go beyond the basic repair scope with concentration on achieving & exceeding OEM factory specifications. We encourage Customer input to solve operational problems by providing solutions to maximize service life and reduce maintenance costs. All repairs are performed in accordance with our Quality Management program.

Quality Commitment:

Xceed Machine's quality policy is to ensure Customer satisfaction by meeting & **XCEEDING** customer expectations. Through the use of innovation, continuous improvement, and service excellence we, as leaders in our industry sector, commit our pledge of quality.
